Jim Bennett

5510 Overland Avenue, Suite 310

San Diego, CA 92123

Mr. Jim Bennett,

I'm concerned about my organic grapes growing next to proposed sand mine. Under the USDA Organic Regulations §205.202 Land requirements (c) it states: Have distinct, defined boundaries and buffer zones such as runoff diversions to prevent the unintended application of a prohibited substance to the crop or contact with a prohibited substance applied to adjoining land that is not under organic management.

Will there be any prohibited substance under USDA Organic Regulations applied to the sand mine property adjoining my property?

Please send confirmation of receipt, thank you.

Sincerely,

A handwritten signature in blue ink that reads "Lucille D Foster". The signature is written in a cursive, flowing style.
